

# Do you find chemistry too abstract?

## Want to learn a computational tool for your research?

### Join us for a molecular dynamics simulation training!

## Requirements & Expectations

- M.S. student in Chemistry, Biology, Nutritional Sciences, or related majors
- Graduating in Fall 2024 or later

Spring 2024

Completing a virtual training (10 weeks, 2-3 h/week)

Fall 2024

Serving as a TA for a virtual course (16 weeks, 2-3 h/week)

Application deadline: February 23, 2024

## Why participate?

- Learn molecular dynamics simulation skills
- Get teaching experiences
- Receive \$1000 upon completion of training in Spring 2024
- Receive \$1000 for serving as a TA in Fall 2024
- Possibility of being hired as a research assistant (\$15k/year stipend + tuition waiver) in 2024-2026
